Severity:	Medium

Description

When creating a new task the user is not allowed to use numbers, special characters and latin characters

STR:

- 1. Start the app
- 2. Tap "Create a new task"
- 3. Type the name using at least 1 number / special character / latin character
- 4. Observe the issue by receiving an error message

Observed result:

When creating a new task using numbers, special characters and latin characters the error message "The task should be in Russian" pops up

Expected result:

It should be possible to create a task using numbers, special characters and latin characters

Severity:	Low		

Description

When editing the task, it's possible to input more than 25 characters

STR:

- 1. Start the app
- 2. Create a task
- 3. Longtap the task name to edit it
- 4. Put more than 25 characters
- 5. Tap "Modify"
- 6. Observe the issue

Observed result:

When editing the task name using more than 25 characters, no error message pops up and the task is modified.

Expected result:

The error message "Task can't be more than 25 characters long" should pop up

[SL-6] No error message pops up when creating 11 tasks Created: 13/May/25 Updated: 13/May/25

Rank:	0 i0004f:
Severity:	Medium

Description

When creating a new task using only spaces no error message pops up and the empty task is created

STR:

- 1. Start the app
- 2. Tap "Create a task" field
- 3. Input only spaces
- 4. Observe the issue

Observed result:

It's possible to create a new task using only spaces

Expected result:

When the user creates a task using only spaces, the error message "The task can't be empty" should pop up

Generated at Tue Sep 02 12:40:50 UTC 2025 by Alena Chernyaeva using Jira 1001.0.0-SNAPSHOT#100288-rev:6110c7a81a255cb3670526aae22a256d79db918f.

[SL-9] [The "done" status does not save when switching between portrait/landscape orientation](#) Created: 13/May/25

Updated: 07/Jul/25

Status:	To Do
Project:	Shopping List
Components:	None
Affects versions:	None
Fix versions:	None

Type:	Bug	Priority:	High
Reporter:	Alena Chernyaeva	Assignee:	Alena Chernyaeva
Resolution:	Unresolved	Votes:	0
Labels:	None		
Environment:	Galaxy A14 AOS 14		

Rank:	0 i0004n:
Severity:	High

Description

When the user marks several tasks as “done” and then changes to landscape orientation, the changes in status do not save

STR:

1. Start the app
2. Create several tasks
3. Mark some of them as “done” (better at the beginning or the end of the list)
4. Change to landscape orientation
5. Scroll and scroll back the list of tasks
6. Observe the issue

Observed result:

When the user marks several tasks as “done” and then changes to landscape orientation and scrolls the list, the task “done” status disappears

Expected result:

The “done” status should remain as it was.

Please note that the issue takes place whenever the task is covered by another field. For example, tap “New task” for the keyboard to appear, scroll the list and observe the “done” status gone.
